

Certificate of membership

ecosystem, an eco-organization approved by the public authorities within the framework of the regulations relating to waste from Electric and Electronic Equipments (EEE), and the waste from Batteries (Portable or mobility batteries, SLI batteries, industrial batteries, electric vehicles batteries),

certifies that since 17.10.2025 the company INTERLAB INTERSCIENCE registered under SIREN 398039180

is a member of ecosystem under account number 1108909, as Producer of the following equipments :

- **Professional EEE**, contract 45009040 registered under UIN FR379191_05BPBU
- **Portable batteries**, contract 45023662
- **Industrial batteries**, contract 45023663

As part of its membership, the company participates, in proportion to the volume of the equipment specified above that it declares to ecosystem, in financing the prevention and management of waste from Electric and Electronic Equipments (EEE), and the waste from Batteries (Portable or mobility batteries, SLI batteries, industrial batteries, electric vehicles batteries), collected separately on the national territory (metropolitan France + relevant DROM/COM).

ecosystem is responsible for transmitting the declarations to the ADEME Syderep register, on behalf of the producer.

Certificate established for all legal intents and purposes.

Done at La Défense, France on 04/02/2026.

A handwritten signature in black ink, appearing to read "A. Aubry".

Jean-Paul AUBERGER
Client Relations Manager, **ecosystem**
