

BagRack® *Slide*

Storage rack for bags

Ref 221 440

Manufactured under:

BagRack® *Slide* enables the clean and methodical storage of 12 bags with samples. Perfect to use with BagFilter® Pipet & Roll, which allows an easy pipetting, avoids cross contaminations from the pipet, and allows quick and clean disposal of the bags. The BagRack® *Slide* allows the user to slide the bag from the side for insertion and also access for pipetting. This rack is compatible with pre-enrichment of the sample for the detection of pathogens bacteria such as listeria or salmonella.
